

Press release  
Annecy (Haute - Savoie) – June 2021

Summer  
PROMO DAYS

21-25  
JUNE  
2021

### NTN-SNR RENEWS ITS SEASONAL PROMOTIONAL OFFERS

After the resounding commercial success of the previous editions, world leading automotive manufacturer NTN-SNR announces its new “SUMMER PRO DAYS.” From June 21-25, automotive aftermarket professionals can benefit from exceptional discounts on timing belt kits with a water pump.

As a component that is vital for the correct operation of the engine, the water pump should be replaced at the same time as the timing belt kit whenever the latter assembly is serviced. With the goal of providing a suitably complete offering, NTN-SNR has always consistently supported professionals with product offerings that cover most applications where the water pump is driven by the timing belt.

Aware of recent problems encountered by professionals in connection with the public health crisis, NTN-SNR is renewing its promotional operation before the summer holidays for a product range that is essential to the vehicle: timing belt kits with a water pump. These discounts will be in effect for 5 days from June 21 through June 25, 2021. By connecting to the manufacturer's e-shop or by contacting their usual NTN-SNR representative, manufacturer's customers are eligible for significant discounts on all orders for a selection of 7 timing belt kits with a water pump covering many automotive brands.

Part numbers associated with the promotional offer:

KDP457.320 - KDP458.341 - KDP452.180 -  
KDP455.411 - KDP452.290 - KDP452.300 -  
KDP453.310
